**QUICK START GUIDE**

To watch our how to use video go to: www.howtouse.waterpik.com

1. **Prepare the Reservoir:**
   - Remove the reservoir from base and fill with lukewarm water.
   - Replace the reservoir onto the base, PRESSING DOWN FIRMLY to ensure full seating.

2. **Select and Insert Tip:**
   - Press tip firmly into handle. When tip is properly inserted there should be no gap between handle and colored tip ring.

3. **Prime Unit (First Time Use Only):**
   - Prior to Very First Use of Unit, Prime Unit:
     - Set pressure control dial on base to high, point the handle and tip into sink. Turn unit ON until water flows from the tip, turn unit OFF.

4. **Adjust Pressure and Pause Control:**
   - For first time users, adjust pressure control to lowest position. Gradually increase pressure to your liking.
   - You can temporarily stop water flow by pressing the pause button on the handle.

   *continued on back*

---

This device is only compatible with a voltage system of 120VAC, 60Hz. Do not plug this device into a voltage system that is different.

5. **Using your Waterpik® Water Flosser:**
   - **Always place tip in mouth before turning unit on.**
   - Lean over sink and close lips enough to prevent splashing, while still allowing water to flow from mouth into the sink. Turn unit ON.
   - **Aim the water stream just above the gumline at a 90 degree angle.**
   - Starting with the back teeth, follow the gumline and pause briefly between teeth. Continue until all areas around and between teeth have been cleaned.

6. **Tip Removal:**
   - Push the tip eject button on the handle. The control knob will rise, releasing the tip. Remove the tip. **Caution:** Do not press tip eject button while unit is running.
