QUICK START GUIDE

Model WP-260

1 Prepare the Reservoir:
   - Remove the reservoir from base and fill with lukewarm water.
   - Replace the reservoir onto the base, PRESSING DOWN FIRMLY to ensure full seating.

2 Select and Insert Tip:
   - Press tip firmly into handle.
   - When tip is properly inserted there should be no gap between handle and colored tip ring.

3 Prime Unit (First Time Use Only):
   - Prior to Very First Use of Unit, Prime Unit: Set pressure control dial on base to high, point the handle and tip into sink. Turn unit ON until water flows from the tip. Turn unit OFF.

4 Adjust Pressure Control:
   - For first time users, adjust pressure control to lowest position. Gradually increase pressure to your liking.

This device is compatible with global voltages of 100 - 240VAC, 60/50Hz.

continued on back
5 Using your Waterpik® Water Flosser:

- Always place tip in mouth before turning unit on.
- Lean over sink and close lips enough to prevent splashing, while still allowing water to flow from mouth into the sink. Turn unit **ON**.
- Aim the water stream just above the gumline at a 90 degree angle.
- Starting with the back teeth, follow the gumline and pause briefly between teeth.
- Continue until all areas around and between teeth have been cleaned. Turn unit **OFF**.

6 Tip Removal:

- Slide the tip eject button up on the handle. Remove the tip.
- **Caution:** Do not slide tip eject button while unit is running.
