**QUICK START GUIDE**

1. **Charge Unit for 24 Hours Prior to First Use.**
   - Turn power switch **OFF**, plug power cord into outlet, and insert the charging cord into the unit.
   - **Plug in & Charge**

2. **Insert Tip:**
   - Select the appropriate tip and insert into the unit. Press firmly until the tip clicks into place. To remove tip, push the tip eject button.
   - **Insert**
   - **Tip:**
     - **Knot**
     - **On**
     - **Off**
   - **Note:** For first time use, use blue low pressure tip. To increase water pressure, use the clear high pressure tip.

3. **Fill the Reservoir:**
   - Unplug charging cord from unit prior to filling with water and during use.
   - Lift the flip top on reservoir and fill with lukewarm water. Refill as needed.
   - **Remove Plug**
   - **Flip Open**

4. **Usage:**
   - **Caution:** Do not press tip eject button while unit is running.
   - Be sure tip is fully engaged before turning **ON**.
   - **Note:** OFF button is located directly below the ON button.

5. **On/Off Procedure:**
   - Always place tip in mouth before turning unit on.
   - Lean over sink and close lips enough to prevent splashing, while still allowing water to flow from mouth into the sink. Turn unit **ON**.
   - Keep unit upright during use to ensure continuous water flow.

6. **Technique Tips for Best Results:**
   - Aim the tip just above the gumline at a 90 degree angle.
   - Starting with the back teeth, follow the gumline and pause briefly between teeth. Continue until all areas around and between teeth have been cleaned.
