WATER FLOSSER The Easy and More Effective Way to Floss™

Brushing is Not Enough.

Despite the fact that virtually everyone brushes their teeth, half of all Americans have gum disease. Clinical research confirms that the Waterpik® Water Flosser is significantly more effective than string floss and air floss for removing plaque and improving gum health.¹ That's why it is the #1 choice among dental professionals.

And if you have dental work like implants, crowns, or braces, the Waterpik® Water Flosser is essential.

¹Independent clinical studies. Go to www.waterpik.com for details.

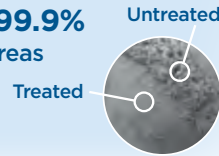

Clinically Proven Results

Effective Plaque Removal

Proven to remove up to **99.9%** of plaque from treated areas in **3 seconds**.¹

Tooth surface magnified by electron microscope
