Oral Health Product Guide
Clinical Research Highlights

All Water Pik clinical research is conducted by independent universities and research facilities and is published in peer reviewed journals. Recent research proves conclusively that the Waterpik® Water Flosser is more effective than string floss for removing plaque and reducing gingivitis and gingival bleeding.

Waterpik® Water Flosser: Up to 29% More Effective for Plaque Removal than String Floss

Comparison of Two Interdental Devices on the Reduction of Plaque

Waterpik® Water Flosser: Removes up to 99.9% of Plaque Biofilm After 3-Second Treatment

Biofilm Removal with a Dental Water Jet

Waterpik® Water Flosser: Up to 50% More Effective than String Floss for Reducing Gingivitis

Comparison of Irrigation to Floss as an Adjunct to Toothbrushing: Effect on Bleeding, Gingivitis and Supragingival Plaque

Barnes CM, et al. J Clin Dent, 2005; 16(3): 71-77. Study conducted at the University of Nebraska Medical Center, College of Dentistry, Lincoln, Nebraska.
Waterpik® Water Flosser: Up to 3X as Effective than String Floss for Orthodontic Patients

The Effect of a Dental Water Jet with Orthodontic Tip on Plaque and Bleeding in Adolescent Orthodontic Patients with Fixed Orthodontic Appliances

Waterpik® Water Flosser: Up to 80% More Effective than Air Floss for Reducing Gingivitis

Comparison of Two Power Interdental Cleaning Devices on the Reduction of Gingivitis

Waterpik® Complete Care: Up to 70% More Effective than a Leading Sonic Toothbrush for Reducing Gingival Bleeding

The Addition of a Water Flosser to Power Toothbrushing: Effect on Bleeding, Gingivitis, and Plaque

This research builds on a base of over 55 clinical studies on Waterpik® Oral Health products. For more information go to www.waterpik.com.
Why just brush when you can get Complete Care?

Brushing is not enough. Even with a high-end sonic toothbrush, Waterpik’s new Complete Care combines proven Water Flosser and Sonic Toothbrush technologies and is up to 70% more effective than sonic toothbrushing alone. Easy and more effective brushing and flossing is now possible with one convenient device that saves counter space and power outlets. The Waterpik® Complete Care puts all the elements of superior oral care at your patients’ fingertips.

- Contemporary, compact design
- Can be used with your favorite mouthwash
- Advanced pressure control system with ten pressure settings
- High-volume, covered reservoir — 90+ seconds of water capacity
- Hygienic storage — covered tip and brush head compartment holds five accessories
- Two-year warranty
- Five Water Flosser Jet Tips and two Sensonic® Brush Heads included
• Removes significantly more plaque than other sonic toothbrushes
• 25% faster bristle tip speed
• Ergonomic handle design with no-slip grip
• Advanced brush head design with extra soft, end-rounded bristles
• Brush head storage on charger base
• Two hygienic brush head covers

• Deluxe recharge indicator gauge
• Premium travel case
• Global voltage compatibility
• Two speeds
• Two-minute timer
• 30-second quadrant pacer
• Two-year warranty
• Three unique Brush Heads

Sonic Toothbrushes
Sensonic® Standard Brush Head
Sensonic® Compact Brush Head
Sensonic® Interdental Brush Head

Effective Plaque Removal
Up to 29% more effective than a leading sonic toothbrush for removing plaque.

Reducing Gingival Bleeding
Up to 26% more effective than a leading sonic toothbrush for reducing gingival bleeding.

Faster Bristle Tip Speed
Ultra high bristle tip speed of the Sensonic® Professional Plus provides effective plaque removal while being gentle on your teeth and gums.

Independent clinical studies. Go to www.waterpik.com for details.
Recent clinical research confirms that the Waterpik® Water Flosser is significantly more effective than String Floss and Air Floss for removing plaque and improving gingival health.

- Contemporary, compact design
- Can be used with your favorite mouthwash
- High-volume covered reservoir — 90+ seconds of water capacity
- #1 model recommended by U.S. dental professionals
- Undercover tip compartment provides hygienic storage
- Two-year warranty

Independent clinical studies. Go to www.waterpik.com for details.
• Smaller and quieter than previous models
• Three pressure settings
• 10 – 80 psi
• Reservoir capacity of 60+ seconds
• Energy efficient design

• Reservoir inverts over base for easy storage
• Two-year warranty

• 50% smaller than previous models
• Perfect for those with small bathrooms and limited counter space
• Deluxe, soft-sided travel case
• Global voltage compatibility for easy operation in any country around the world
• Reservoir inverts for travel and easy storage

Densco® Prophy Cups

Our complete line of prophy cups and brushes minimize splatter and fit most prophy angles. Densco® prophy cups are available in Soft Blue, Firm Yellow, Medium White, and Latex-free Dynamo Green, which features a reverse helix rib design for reduced splatter.

Screw Shank Prophy Cups
- 085112-144: Soft Blue rubber with skirt, ribs only, 144 cups
- 085132-144: Soft Blue rubber with skirt, ribs and recessed webs, 144 cups
- 085132-01M: Soft Blue rubber with skirt, ribs and recessed webs, 1000 cups
- 085133-144: Firm Yellow rubber with skirt, ribs and recessed webs, 144 cups
- 085133-01M: Firm Yellow rubber with skirt, ribs and recessed webs, 1000 cups
- 085321-144: Medium White rubber with webs, 144 cups
- 085321-01M: Medium White rubber with webs, 1000 cups

Latex-free Dynamo Green Screw Shank Prophy Cups
- 085148-144: Soft Light Green rubber with reverse helix rib design, 144 cups
- 085148-01M: Soft Light Green rubber with reverse helix rib design, 1000 cups

Snap-On Prophy Cups
- 085032-144: Soft Blue rubber with ribs and recessed webs, 144 cups
- 085032-01M: Soft Blue rubber with ribs and recessed webs, 1000 cups
- 085033-144: Firm Yellow rubber with ribs and recessed webs, 144 cups
- 085021-144: Medium White rubber with webs, 144 cups

Latex-free Dynamo Green Snap-On Prophy Cups
- 085048-144: Soft Light Green rubber with reverse helix rib design, 144 cups

Right Angle (Latch) Prophy Cups
- 085212-144: Soft Blue rubber with skirt, ribs only, 144 cups
- 085232-144: Soft Blue rubber with skirt, ribs and recessed webs, 144 cups
- 085232-01M: Soft Blue rubber with skirt, ribs and recessed webs, 1000 cups
- 085233-144: Firm Yellow rubber with skirt, ribs and recessed webs, 144 cups
- 085233-01M: Firm Yellow rubber with skirt, ribs and recessed webs, 1000 cups

Densco® Prophy Brush
Densco® prophy brushes effectively remove stains and clean occlusal pits and fissures, around orthodontic appliances, and hard-to-reach interproximal spaces.

Screw Shank Prophy Brush
- 085177-036: Tapered brush, 36 brushes

Nylon Prophy Brush, Snap-on
- 085077-036: Tapered brush, 36 brushes
Densco® Proflex Flexible Scaler
Designed for efficient scaling and stain removal, the Densco® proflex flexible scaler is made of stainless steel with microscopic scaling edges built into each strip. An indisposable tool for interproximal cleaning.

Jar of 100 cups
20008940   Ultra-Fine Grit Mint

Waterpik® Soft Shine® Prophy Paste
Cleans and polishes in one step
No need to change pastes between restorations and natural teeth. Soft Shine® micro-fine white sapphire particles are proven to remove stains and fine scratches without damaging surfaces. Safe and effective on restorations and natural teeth.

Disposible Prophy Angles

Waterpik Wizard™ Latex-free Cup and Brush Combination
Unique cup and brush combination gently polishes teeth. Removes stains efficiently, especially from occlusal surfaces and interproximal spaces. Spiral cup design minimizes splatter. Soft blue cup makes contoured cleaning easy and maximizes patient comfort.

20005474   125 angles
20005475   1000 angles

Densco® Disposable Prophy Angles
A combined webbed and ribbed design for heavy stain removal and reduced splatter, Densco® disposable prophy angles are made of high-strength nylon components and a dry natural rubber prophy cup. Available in Soft Blue, for easy contour cleaning and patient comfort, and Firm Yellow for tougher stains.

Densco® Latex-free Dynamo Green Disposable Prophy Angle
Our latex-free Dynamo Green angle features a unique reverse helix rib design to reduce splatter and efficiently remove stains. Soft green cup makes contoured cleaning easy and maximizes patient comfort.

018125-100   125 angles
018125-01M   1000 angles

Densco® Disposable Prophy Angle with Tapered Brush
Your best choice for removing heavy stains from occlusal surfaces and those hard-to-reach interproximal spaces.

018175-100   100 angles
### Original Tofflemire® “Dead-Soft” Matrix Bands

The micro-thin “dead-soft” band is .001 inch gauge, making it more flexible than thicker bands. For use with posterior composites, it helps create tight interproximal contact. Allows creation of ideal restoration contour without breakage or band deformation.

**Packages of 36 bands**

Wizard Wedges® Anatomical Matrix Wedges

These anatomically shaped birch wood wedges employ an exclusive multi-plane contour that firmly engages adjoining teeth to hold the matrix in position. Available in four sizes.

**Package of 100**  
061315-000 Assortment of sizes

**Package of 400**
- 061306-000 Small (natural)
- 061307-000 Medium (yellow)
- 061308-000 Large (purple)
- 061309-000 Extra large (red)
- 061310-000 Assortment of sizes

Wizard Wedges® Matrix Wedges

These proven wedges ensure better access and stable holding of matrix systems during your critical restorative procedures. Specially crafted from birch wood for greater tooth separation and faster, better tooth position recovery upon removal. Available in four sizes.

**Package of 100**  
061205-000 Assortment of sizes

**Package of 500**
- 061211-000 Small
- 061212-000 Large
- 061213-000 Slim Jim
- 061214-000 Wide Base
- 061215-000 Assortment of sizes

Original Tofflemire® II Retainers

Secure locking mechanism and instant release enable the Original Tofflemire® retainers to tighten and release with precise, effortless action. The clean, smooth surface is free of burrs and sharp edges that can cause gingival trauma. Easy insertion and adjustment; handles any width band. Permits accurate trimming of wider band for special anatomical needs. Contra-Angle model can be used buccally and lingually. Fully autoclavable.

**Package of 1**
- 20016453 Universal
- 20016455 Contra-Angle

Tra-Tens® Impression Trays

Proven over time to be a versatile design which provides extremely accurate impressions, Tra-Tens® impression trays have a unique, fully perforated pattern that enables excellent mechanical retention. Available in nine sizes.

**Packages of 12**
- 13451-000 No.1 Small Upper
- 13452-000 No.2 Medium Upper
- 13453-000 No.3 Large Upper
- 13454-000 No.4 Small Lower
