Unique Hourglass Ring Design

The unique hourglass shape allows you to see and access the site to help you achieve outstanding restorations with tighter contacts. Waterpik® ClearView rings retain their strength over time for consistent and predictable restorations. The innovative gripping tines are designed to eliminate “spring-off” and reduce flash. The Difference is Clear!

25% More Access and Visibility*

Up to 35% More Tooth Separation Force*

## ClearView Trial Kit

- 1 - Universal Ring
- 1 - Ring Forceps
- 5 - 5.5mm (dark blue) non-stick matrices
- 5 - 6.4mm (green) non-stick matrices
- 10 - Small Wedges (light blue)

## ClearView Rings

The unique hourglass shape allows you to see and access the site to help you achieve outstanding restorations with tighter contacts, and it retains its strength for consistent and predictable restorations over time. Either one ring may be used for the restoration or two rings may be stacked one over the other for performing M.O.D.'s and multiple-tooth restorations.

## ClearView Sectional Matrices

The Waterpik® ClearView Sectional Matrices have a non-stick coating, plus a centralized gripping tab for easier placement and removal of the matrix. The matrices are anatomically shaped to produce the best contour and contact for the range of Class II restorations. They are color-coded for quick and accurate selection of the desired size.

## ClearView Ring Forceps

The autoclavable Waterpik® ClearView Ring Forceps are specifically designed to provide secure gripping of the ClearView ring for placement and removal.

| 20020235 | 1 ClearView Ring Forceps |
Original Tofflemire® “Dead-Soft” Matrix Bands
The micro-thin “dead-soft” band is .001 inch gauge, making it more flexible than thicker bands. For use with posterior composites, it helps create tight interproximal contact. Allows creation of ideal restoration contour without breakage or band deformation.

Packages of 36 bands
34603-6 No.1 Adult Universal .001 in (.025 mm)
34604-4 No.2 Adult MOD Wide .001 in (.025 mm)
34605-2 No.13 Pedo Universal .001 in (.025 mm)

Thinnest
- Micro-Thin .001 in .025 mm

Thin
- Ultra-Thin .0015 in .0375 mm

Thickest
- Regular .002 in .05 mm

Getz® Contour Matrix Bands “Dixieland Band”
The Getz® contoured matrix bands create anatomically contoured contacts with minimal burnishing for your best and tightest interproximal contacts. Made of high tensile strength stainless steel that will not tear under stress. Available in .002 inch regular and .0015 inch ultra-thin thickness.

Packages of 50 bands
061081-000 .002 in – Regular (.05 mm)
061080-000 .0015 in – Ultra-thin (.0375 mm)

Original Tofflemire® Matrix Bands
This surgical grade stainless steel band is carefully stamped for consistently smooth (burr free) edges that keep your patients comfortable and reduce risk of gingival trauma. Available in a variety of sizes and contours, in both .002 inch and .0015 inch thicknesses.

No.1 Adult Universal
- 34577-0 .002 in (.05 mm), 36 bands
- 062001-000 .002 in (.05 mm), 144 bands
- 34578-9 .0015 in (.0375 mm), 36 bands
- 062002-000 .0015 in (.0375 mm), 144 bands
- 061032-000 .0015 in (.0375 mm), 1000 bands

No.2 Adult MOD Wide
- 34579-7 .002 in (.05 mm), 36 bands
- 34580-0 .0015 in (.0375 mm), 36 bands

No.3 Adult MOD Narrow
- 34582-6 .0015 in (.0375 mm), 36 bands

No.13 Pedo Universal
- 34584-2 .002 in (.05 mm), 36 bands
- 34585-0 .0015 in (.0375 mm), 36 bands
- 062010-000 .0015 in (.0375 mm), 144 bands
**Wizard Wedges® Anatomical Wood Matrix Wedges**

These anatomically shaped birch wood wedges employ an exclusive multi-plane contour that firmly engages adjoining teeth to hold the matrix in position. Available in four sizes.

- **Bag of 100**
  - 061315-000 Assortment of sizes

- **Box of 400**
  - 061306-000 Small (natural)
  - 061307-000 Medium (yellow)
  - 061308-000 Large (purple)
  - 061309-000 Extra large (red)
  - 061310-000 Assortment of sizes

---

**Wizard Wedges® Wood Matrix Wedges**

These proven wedges ensure better access and stable holding of matrix systems during your critical restorative procedures. Specially crafted from birch wood for greater tooth separation and faster, better tooth position recovery upon removal. Available in four sizes.

- **Package of 100**
  - 061205-000 Assortment of sizes

- **Box of 500**
  - 061211-000 Small
  - 061212-000 Large
  - 061213-000 Slim Jim
  - 061214-000 Wide Base
  - 061215-000 Assortment of sizes

---

**Original Tofflemire® II Retainers**

Secure locking mechanism and instant release enable the Original Tofflemire® retainers to tighten and release with precise, effortless action. The clean, smooth surface is free of burrs and sharp edges that can cause gingival trauma. Easy insertion and adjustment; handles any width band. Permits accurate trimming of wider band for special anatomical needs. Contra-Angle model can be used buccally and lingually. Fully autoclavable.

- **Package of 1**
  - 20016453 Universal
  - 20016455 Contra-Angle
**PROFESSIONAL DENTAL PRODUCTS | FLUORIDE PRODUCTS**

**FLUORIDE PRODUCTS**

Box of 30 single dose units 0.40mL and applicator brushes
- 20026681 Melon
- 20026682 Bubblegum
- 20026683 Strawberry
- 20026684 Mint

Box of 100 single dose units 0.40mL and applicator brushes
- 20026685 Melon
- 20026686 Bubblegum

**PROPHY PRODUCTS**

**Waterpik® Prophy Pastes**
Waterpik® prophylaxis pastes offer minimal splatter and great taste. Tough on stains and plaque, with minimal abrasion, this fluoride prophy paste makes cleaning and polishing effective for both patient and hygienist.

Box of 200 single dose units (+1 prophy ring)
- 20026920 Bubblegum Fine
- 20026922 Bubblegum Medium
- 20026921 Melon Fine
- 20026923 Melon Medium
- 20026924 Melon Coarse
- 20026925 Strawberry Medium
- 20026926 Strawberry Coarse
- 20026927 Cherry Medium
- 20026928 Cherry Coarse
- 20026929 Mint Extra Coarse
- 20026930 Mint Medium
- 20026931 Mint Coarse
- 20026932 Variety Pack Medium
  - Includes 40 cups each: Bubblegum, Melon, Strawberry, Cherry, Mint

For your free 14 cup trial pack visit professional.waterpik.com or call 1.800.525.2020

**Waterpik® Soft Shine® Prophy Paste**
Cleans and polishes in one step
No need to change pastes between restorations and natural teeth. Soft Shine® micro-fine white sapphire particles are proven to remove stains and fine scratches without damaging surfaces. Safe and effective on restorations and natural teeth.

Jar of 100 cups
- 20008940 Ultra-Fine Grit Mint

**Densco® Proflex Flexible Scaler**
Designed for efficient scaling and stain removal, the Densco® proflex flexible scaler is made of stainless steel with microscopic scaling edges built into each strip. An indispensable tool for interproximal cleaning.

085000-000 3 foot roll
## DISPOSABLE PROPHY ANGLES

### Waterpik Gel-Grip® Prophy Angle with Latex-free Dynamo Green Cup
The cup features a unique reverse helix rib design to reduce splatter and efficiently remove stains. Soft cup makes contoured cleaning easy and maximizes patient comfort.

**Key-To® Alginate Impression Material**
A versatile choice, Key-To® alginate comes in a variety of body and set types designed to produce consistent impressions. Quick mixing for smooth handling and fast cleanup. Withdraws easily from undercuts and bands without tearing or distortion. Each can includes powder scoop and water vial. Available in Regular and Fast Set. Spearmint flavored.

**Case of 10 one lb (454g) cans**
- 013111-000 Regular Body-Regular Set
- 013112-000 Heavy Body-Fast Set
- 013113-000 Regular Body-Fast Set

**25 lb drum (11.34kg)**
- 013126-000 Heavy Body-Fast Set

**Kalginate™ Alginate**
Kalginate™ alginate is a heavier-bodied impression material specifically formulated to produce superior void-free impressions with minimal bubbles. Available in Normal and Fast-Setting formulas, each can includes powder scoop and water vial. Cinnamon flavored.

**Case of 10 one lb (454g) cans**
- 015021-000 Regular Set
- 015023-000 Fast Set
**Opotow® Standard Zinc Oxide Eugenol Impression Paste**
Designed for use with full denture impressions in a custom tray or as a wash in a denture base. Blue color; Type I, Heavy-Bodied.

012200-000 Complete package contains “A” Hardener 2.8oz (80g), “B” Base 5.1oz (145g), mixing pad, and tube keys.

**Krex® Zinc Oxide Eugenol Impression Corrective Paste**
A zinc oxide eugenol impression paste that can be used for full denture impressions in a custom tray or as a wash. Type II, Medium-Bodied.

015100-000 Complete package contains “A” Hardener 2.8oz (80g), “B” Base 2.3oz (65g), mixing pad, and tube keys.

015101-000 Economy package contains “A” Hardener 4.9oz (139g), “B” Base 4.1oz (116g), mixing pad, and tube keys.

**Hold™ Tray Adhesive**
Available in liquid or aerosol spray. Not recommended for use with elastomeric impression materials.

011460-000 .5oz (14ml) bottles, package of two
011462-000 4oz (118ml) bottles, package of two
011461-000 2.7oz (80ml) aerosol can
Neo-Temp™ Temporary Resin Cement
Neo-Temp™ resin cement is a non-eugenol temporary luting material based on a chemically cured urethane methacrylate polymer.

052200-000 Complete kit contains 10g cement ("A" syringe), 10g ("B" syringe), 15ml of dentin sealant, 1.5g releasing agent, brushes, spatulas, and mixing pad
052205-000 10g "A" syringe refill
052210-000 10g "B" syringe refill
Not available in Canada

Opotow® Temporary Cement
Designed for luting of cast crowns and bridges on a semi-permanent basis as well as for temporary cementation of provisional restorations where prolonged evaluation is required.

052117-000 Complete kit contains accelerator, base, mixing pad, and two tube keys
Not available in Canada

Opotow® Trial Cement
Opotow® trial cement is a non-hardening temporary cement designed for trial cementation of bridgework, splints, and porcelain-fused-to-metal crowns and bridges.

052120-000 Complete kit contains accelerator, base, mixing pad, and tube key
Not available in Canada
CROWN & BRIDGE

Getz® Blue Core Crown Build-up Material
Getz® blue core crown build-up material is a small particle, radiopaque, light-cured composite core material that cures to a depth of 6mm in 30 seconds.

041418-000 Blue core crown build-up material, single 5g syringe

DENTIN SEALANT

Barrier Dentin Sealant
A universal protective cavity varnish that is also an ideal coronal sealant for endodontic procedures and an effective short-term protectant for exposed root surfaces.

042305-000 Complete kit contains 15ml of barrier dentin sealant and 50 disposable applicator pipettes
042315-000 Disposable applicator pipettes, 2½ inch long, package of 50

ACCESSORIES

Getz® Composite Accessory
Replacement brushes for mixing and application of restorative materials.

Package of 100
041465-000 Disposable brushes

Jiffy Tubes
Available in straight and curved models, Jiffy Tubes aid in the placement of cements, filling materials, and medicaments in difficult access areas.

Box of 30
051001-000 Straight tubes
051002-000 Curved tubes
**Densco® Condensaire® Amalgam Condenser**

The autoclavable Condensaire® amalgam condenser is a safe and effective way to condense amalgam automatically. Condensaire® is easy and safe to install and operate, fitting all standard four hole handpiece connectors. Requires no routine maintenance or special cleaning.

### Complete kit:
- Instrument with four hole connector (includes: Medium Round tip, Large Round tip, Round Rubber tip and Tip holder)

### Instrument only:
- Instrument only with four hole connector

**Densco® Condensaire® Condenser Accessories**

**Tips**
- 000809-000 Small Round (1.14mm)
- 000810-000 Medium Round (1.52mm)*
- 000811-000 Large Round (2.16mm)*
- 000812-000 Round Rubber (4.75mm)*

- 000833-000 Rubber replacement tip, round
- 000845-000 Rubber replacement tip, pointed
- 000829-000 Tip holder*

*Included in Complete Kit (083117-000)

Holder sold separately
Oral Health Product Guide

We are waiting on new /finished photography, with all the products at complementary angles (so they can be stacked together). In the meantime, please make sure that all the products shown here are the ones that should appear on the /final cover.
