Includes two replacement brush heads and a travel case

The World’s First Flossing Toothbrush!

Waterpik® Sonic-Fusion® seamlessly switches from brushing to flossing, and removes the harmful bacteria and debris deep between teeth and below the gumline that traditional brushing and flossing can’t reach.

- 3 Modes - Brush, Floss, Brush + Floss
- Clinically proven
- Up to 2X as effective as regular brushing and flossing

- Limited three-year warranty

Waterpik® Sonic-Fusion®

Includes two replacement brush heads and a travel case
Naturally whiten while you floss

The perfect product for naturally whiter teeth and fresh breath, with all the benefits of water flossing. It restores your natural whiteness in just 4 weeks. The Whitening infuser technology expertly mixes water with a gentle stain removal agent that safely restores your natural whiteness, removes plaque, and promotes healthier gums.

- 10 Pressure settings (0.7 to 7.0 bar / 10 to 100 psi)
- Reservoir capacity of 90+ seconds
- On/Off water control on handle
- In-Handle Whitening Infuser
- 2 Modes – Floss Mode and Hydro-Pulse Massage Mode
- Four whitening water flosser tips included
- Includes 30 Mint Fresh Whitening Tablets
- Limited three-year warranty

Actual Results

Before: Accumulation of tea stains

4 weeks of Waterpik® Whitening
Great for travel. Great for home.

Counter top performance in an advanced compact design. The Waterpik® Sidekick® collapses to easily fit in almost any purse or briefcase and has global voltage compatibility, making it perfect for travel. Sidekick® has been clinically proven to be more effective at removing plaque and improving gum health than brushing alone.

- Compact design is great for travel
- Global voltage compatibility
- Easy-to-hold swivel handle
- Slide pressure control
- Premium travel case included
- Limited three-year warranty
Dispense Waterpik® Products

Dispensing the Waterpik® Water Flosser is a great way to get an effective product in your patient’s hands quickly and get them on their way to healthier gums and teeth! Whether you plan to sell the product or include it in a treatment plan, Waterpik® offers several resources to help you be successful. Available exclusively through dental offices and online.

Unique Hourglass Ring Design

The unique hourglass shape allows you to see and access the site to help you achieve outstanding restorations with tighter contacts. Waterpik® ClearView rings retain their strength over time for consistent and predictable restorations. The innovative gripping tines are designed to eliminate “spring-off” and reduce flash. The Difference is Clear!

25% More Access and Visibility*

Up to 35% More Tooth Separation Force*

Professional Dental Products

MATRIX SYSTEMS

ClearView Trial Kit
20020224 1 - Universal Ring
1 - Ring Forceps
5 - 5.5mm (dark blue) non-stick matrices
5 - 6.4mm (green) non-stick matrices
10 - Small Wedges (light blue)

ClearView Complete Kit
20020223 2 - Universal Rings
1 - Ring Forceps
Non-stick Matrices:
20 - 4.6mm (light gray)
20 - 3.8mm with extension (light blue)
20 - 5.5mm (dark blue)
20 - 6.4mm with extension (purple)
20 - 6.4mm (green)

ClearView Rings
The unique hourglass shape allows you to see and access the site to help you achieve outstanding restorations with tighter contacts, and it retains its strength for consistent and predictable restorations over time. Either one ring may be used for the restoration or two rings may be stacked one over the other for performing M.O.D.’s and multiple-tooth restorations.

ClearView Sectional Matrices
The Waterpik® ClearView Sectional Matrices have a non-stick coating, plus a centralized gripping tab for easier placement and removal of the matrix. The matrices are anatomically shaped to produce the best contour and contact for the range of Class II restorations. They are color-coded for quick and accurate selection of the desired size.

CV Anatomical Wedges
The anatomical shape of the Waterpik® CV Wedge produces a comfortable and secure fit for optimal contour, gingival seal, and tooth separation.

ClearView Ring Forceps
The autoclavable Waterpik® ClearView Ring Forceps are specifically designed to provide secure gripping of the ClearView ring for placement and removal.
Original Tofflemire® “Dead-Soft” Matrix Bands
The micro-thin “dead-soft” band is .001 inch gauge, making it more flexible than thicker bands. For use with posterior composites, it helps create tight interproximal contact. Allows creation of ideal restoration contour without breakage or band deformation.

Packages of 36 bands
34603-6 No.1 Adult Universal .001 in (.025 mm)
34604-4 No.2 Adult MOD Wide .001 in (.025 mm)
34605-2 No.13 Pedo Universal .001 in (.025 mm)
