Naturally whiten while you floss

The perfect product for naturally whiter teeth and fresh breath, with all the benefits of water flossing. It restores your natural whiteness in just 4 weeks. The Whitening infuser technology expertly mixes water with a gentle stain removal agent that safely restores your natural whiteness, removes plaque, and promotes healthier gums.

- 10 Pressure settings (0.7 to 7.0 bar / 10 to 100 psi)
- Reservoir capacity of 90+ seconds
- On/Off water control on handle
- In-Handle Whitening Infuser

- 2 Modes – Floss Mode and Hydro-Pulse Massage Mode
- Four whitening water flosser tips included
- Includes 30 Mint Fresh Whitening Tablets
- Limited three-year warranty

Actual Results

Before: Accumulation of tea stains
4 weeks of Waterpik® Whitening
Great for travel. Great for home.

Counter top performance in an advanced compact design. The Waterpik® Sidekick® collapses to easily fit in almost any purse or briefcase and has global voltage compatibility, making it perfect for travel. Sidekick® has been clinically proven to be more effective at removing plaque and improving gum health than brushing alone.

- Compact design is great for travel
- Global voltage compatibility
- Easy-to-hold swivel handle
- Slide pressure control
- Premium travel case included
- Limited three-year warranty
Dispense Waterpik® Products

Dispensing the Waterpik® Water Flosser is a great way to get an effective product in your patient’s hands quickly and get them on their way to healthier gums and teeth! Whether you plan to sell the product or include it in a treatment plan, Waterpik® offers several resources to help you be successful. Available exclusively through dental offices and online.

Clinical Research Highlights

All Water Pik, Inc. clinical research is conducted by independent universities and research facilities and is published in peer reviewed journals. Recent research proves conclusively that the Waterpik® Water Flosser is more effective than string floss for removing plaque and reducing gingivitis and gingival bleeding.

SONIC–FUSION®

Waterpik® Sonic–Fusion®: Twice as Effective as regular Brushing & Flossing for Removing Plaque and Improving Gum Health.

Comparison of a novel sonic toothbrush to standard brushing and flossing on clinical signs of inflammation: A randomized clinical trial

Go to waterpik.com for research details.
Waterpik® Whitening Water Flosser: Improved stain removal over tooth brushing alone.

Evaluation of Tooth Whitening using a Liquid Dentifrice Delivered by the Waterpik® Whitening Water Flosser.

Milliman JL, Milliman KR, Battershell K, Lyle DM. Study conducted at Salus Research, Fort Wayne, IN. 2014

Stain Reduction After 2 Weeks

Go to waterpik.com for research details.
The Waterpik® Water Flosser: Removes 99.9% of Plaque Biofilm After 3-Second Treatment

Biofilm Removal with a Dental Water Jet

The Waterpik® Water Flosser: Significantly More Effective than String Floss for Removing Plaque

Evaluation of the Plaque Removal Efficacy of a Water Flosser Compared to String Floss in Adults After a Single Use

Go to waterpik.com for research details.
WATER FLOSSER

The Waterpik® Water Flosser: Twice as Effective as String Floss for Reducing Gingival Bleeding

The Effect of Different Interdental Cleaning Devices on Gingival Bleeding

The Waterpik® Water Flosser: Over 50% More Effective than String Floss for Reducing Gingivitis

Comparison of Irrigation to Floss as an Adjunct to Toothbrushing: Effect on Bleeding, Gingivitis and Supragingival Plaque
Barnes CM, Russell CM, Reinhardt RA et al. J Clin Dent, 2005; 16(3): 71-77. Study conducted at the University of Nebraska Medical Center, College of Dentistry, Lincoln, Nebraska.

Go to waterpik.com for research details.
WATER FLOSSER

The Waterpik® Water Flosser: Significantly more effective than interdental brushes for improving gingival health!

Comparison of Water Flosser and Interdental Brush on Reduction of Gingival Bleeding and Plaque

The Waterpik® Water Flosser: 80% More Effective than Sonicare® Air Floss for Reducing Gingivitis

Comparison of Two Power Interdental Cleaning Devices on the Reduction of Gingivitis

Go to waterpik.com for research details.
WATER FLOSSER

The Waterpik® Water Flosser: 3X as Effective as String Floss for Orthodontic Patients

The Effect of a Dental Water Jet with Orthodontic Tip on Plaque and Bleeding in Adolescent Orthodontic Patients with Fixed Orthodontic Appliances

The Waterpik® Water Flosser: 2X as Effective as String Floss For Implant Patients

Comparison of the Effect of Two Interdental Cleaning Devices Around Implants on the Reduction of Bleeding: A 30-day Randomized Clinical Trial

Magnuson B, Harsono M, Stark PC, et al. Compend Contin Ed Dent 2013; 34(Special Issue 8):2-7. Study conducted at Tufts University, School of Dental Medicine, Boston, Massachusetts.

Unique Hourglass Ring Design

The unique hourglass shape allows you to see and access the site to help you achieve outstanding restorations with tighter contacts. Waterpik® ClearView rings retain their strength over time for consistent and predictable restorations. The innovative gripping tines are designed to eliminate “spring-off” and reduce flash. The Difference is Clear!

25% More Access and Visibility*

Up to 35% More Tooth Separation Force*

# Professional Dental Products

## MATRIX SYSTEMS

### ClearView Trial Kit
- 20020224
- 1 - Universal Ring
- 1 - Ring Forceps
- 5 - 5.5mm (dark blue) non-stick matrices
- 5 - 6.4mm (green) non-stick matrices
- 10 - Small Wedges (light blue)

### ClearView Complete Kit
- 20020223
- 2 - Universal Rings
- 1 - Ring Forceps
- Non-stick Matrices:
  - 20 - 4.6mm (light gray)
  - 20 - 3.8mm with extension (light blue)
  - 20 - 5.5mm (dark blue)
  - 20 - 6.4mm with extension (purple)
  - 20 - 6.4mm (green)
- Wedges:
  - 25 - Extra Small (white)
  - 25 - Small (light blue)
  - 25 - Medium (dark blue)
  - 25 - Large (purple)

### ClearView Rings
- The unique hourglass shape allows you to see and access the site to help you achieve outstanding restorations with tighter contacts, and it retains its strength for consistent and predictable restorations over time. Either one ring may be used for the restoration or two rings may be stacked one over the other for performing M.O.D.'s and multiple-tooth restorations.
- 20020225
- 2 Universal Rings

### ClearView Sectional Matrices
- The Waterpik® ClearView Sectional Matrices have a non-stick coating, plus a centralized gripping tab for easier placement and removal of the matrix. The matrices are anatomically shaped to produce the best contour and contact for the range of Class II restorations. They are color-coded for quick and accurate selection of the desired size.
- 20020226
- Bicuspids 4.6mm (light gray)
- 50ct. Sectional Matrices
- 20020227
- Bicuspids 3.8mm with extension (light blue)
- 25ct. Sectional Matrices
- 20020228
- Bicuspids and Small Molars 5.5mm (dark blue)
- 50ct. Sectional Matrices
- 20020229
- Molars 6.4mm with extension (purple)
- 25ct. Sectional Matrices
- 20020230
- Molars 6.4mm (green)
- 50ct. Sectional Matrices

### CV Anatomical Wedges
- The anatomical shape of the Waterpik® CV Wedge produces a comfortable and secure fit for optimal contour, gingival seal, and tooth separation.
- 20020231
- Extra-small (white)
- 100ct. Wedges
- 20020232
- Small (light blue)
- 100ct. Wedges
- 20020233
- Medium (dark blue)
- 100ct. Wedges
- 20020234
- Large (purple)
- 100ct. Wedges

### ClearView Ring Forceps
- The autoclavable Waterpik® ClearView Ring Forceps are specifically designed to provide secure gripping of the ClearView ring for placement and removal.
- 20020235
- 1 ClearView Ring Forceps
Original Tofflemire® “Dead-Soft” Matrix Bands
The micro-thin “dead-soft” band is .001 inch gauge, making it more flexible than thicker bands. For use with posterior composites, it helps create tight interproximal contact. Allows creation of ideal restoration contour without breakage or band deformation.

Packages of 36 bands
34603-6 No.1 Adult Universal .001 in (.025 mm)
34604-4 No.2 Adult MOD Wide .001 in (.025 mm)
34605-2 No.13 Pedo Universal .001 in (.025 mm)

Original Tofflemire® Matrix Bands
This surgical grade stainless steel band is carefully stamped for consistently smooth (burr free) edges that keep your patients comfortable and reduce risk of gingival trauma. Available in a variety of sizes and contours, in both .002 inch and .0015 inch thicknesses.

No.1 Adult Universal
34577-0 .002 in (.05 mm), 36 bands
062001-000 .002 in (.05 mm), 144 bands
34578-9 .0015 in (.0375 mm), 36 bands
062002-000 .0015 in (.0375 mm), 144 bands
061032-000 .0015 in (.0375 mm), 1000 bands

No.2 Adult MOD Wide
34579-7 .002 in (.05 mm), 36 bands
34580-0 .0015 in (.0375 mm), 36 bands

No.3 Adult MOD Narrow
34582-6 .0015 in (.0375 mm), 36 bands

No.13 Pedo Universal
34584-2 .002 in (.05 mm), 36 bands
34585-0 .0015 in (.0375 mm), 36 bands
062010-000 .0015 in (.0375 mm), 144 bands

Getz® Contour Matrix Bands “Dixieland Band”
The Getz® contoured matrix bands create anatomically contoured contacts with minimal burnishing for your best and tightest interproximal contacts. Made of high tensile strength stainless steel that will not tear under stress. Available in .002 inch regular and .0015 inch ultra-thin thickness.

Packages of 50 bands
061081-000 .002 in – Regular (.05 mm)
061080-000 .0015 in – Ultra-thin (.0375 mm)
Wizard Wedges® Anatomical Wood Matrix Wedges
These anatomically shaped birch wood wedges employ an exclusive multi-plane contour that firmly engages adjoining teeth to hold the matrix in position. Available in four sizes.

Original Tofflemire® II Retainers
Secure locking mechanism and instant release enable the Original Tofflemire® retainers to tighten and release with precise, effortless action. The clean, smooth surface is free of burrs and sharp edges that can cause gingival trauma. Easy insertion and adjustment; handles any width band. Permits accurate trimming of wider band for special anatomical needs. Contra-Angle model can be used buccally and lingually. Fully autoclavable.

- 013113-000 Regular Body-Fast Set

**25 lb drum (11.34kg)**

- 013126-000 Heavy Body-Fast Set

**Kalginate™ Alginate**

Kalginate™ alginate is a heavier-bodied impression material specifically formulated to produce superior void-free impressions with minimal bubbles. Available in Normal and Fast-Setting formulas, each can includes powder scoop and water vial. Cinnamon flavored.

**Case of 10 one lb (454g) cans**

- 015021-000 Regular Set
- 015023-000 Fast Set
**Opotow® Standard Zinc Oxide Eugenol Impression Paste**

Designed for use with full denture impressions in a custom tray or as a wash in a denture base. Blue color; Type I, Heavy-Bodied.

- **012200-000** Complete package contains “A” Hardener 2.8oz (80g), “B” Base 5.1oz (145g), mixing pad, and tube keys

**Krex® Zinc Oxide Eugenol Impression Corrective Paste**

A zinc oxide eugenol impression paste that can be used for full denture impressions in a custom tray or as a wash. Type II, Medium-Bodied.

- **015100-000** Complete package contains “A” Hardener 2.8oz (80g), “B” Base 2.3oz (65g), mixing pad, and tube keys
- **015101-000** Economy package contains “A” Hardener 4.9oz (139g), “B” Base 4.1oz (116g), mixing pad, and tube keys

**Hold™ Tray Adhesive**

Available in liquid or aerosol spray. Not recommended for use with elastomeric impression materials.

- **011460-000** .5oz (14ml) bottles, package of two
- **011462-000** 4oz (118ml) bottles, package of two
- **011461-000** 2.7oz (80ml) aerosol can
CEMENTS

Neo-Temp™ Temporary Resin Cement
Neo-Temp™ resin cement is a non-eugenol temporary luting material based on a chemically cured urethane methacrylate polymer.

052200-000  Complete kit contains 10 g cement ("A" syringe), 10 g ("B" syringe), 15 ml of dentin sealant, 1.5 g releasing agent, brushes, spatulas, and mixing pad
052205-000  10 g "A" syringe refill
052210-000  10 g "B" syringe refill
Not available in Canada

Opotow® Temporary Cement
Designed for luting of cast crowns and bridges on a semi-permanent basis as well as for temporary cementation of provisional restorations where prolonged evaluation is required.

052117-000  Complete kit contains accelerator, base, mixing pad, and two tube keys
Not available in Canada

Opotow® Trial Cement
Opotow® trial cement is a non-hardening temporary cement designed for trial cementation of bridgework, splints, and porcelain-fused-to-metal crowns and bridges.

052120-000  Complete kit contains accelerator, base, mixing pad, and tube key
Not available in Canada
CROWN & BRIDGE

Getz® Blue Core Crown Build-up Material
Getz® blue core crown build-up material is a small particle, radiopaque, light-cured composite core material that cures to a depth of 6mm in 30 seconds.

041418-000  Blue core crown build-up material, single 5g syringe

DENTIN SEALANT

Barrier Dentin Sealant
A universal protective cavity varnish that is also an ideal coronal sealant for endodontic procedures and an effective short-term protectant for exposed root surfaces.

042305-000  Complete kit contains 15ml of barrier dentin sealant and 50 disposable applicator pipettes
042315-000  Disposable applicator pipettes, 2½ inch long, package of 50

ACCESSORIES

Getz® Composite Accessory
Replacement brushes for mixing and application of restorative materials.

Package of 100  041465-000  Disposable brushes

Jiffy Tubes
Available in straight and curved models, Jiffy Tubes aid in the placement of cements, filling materials, and medicaments in difficult access areas.

Box of 30  
051001-000  Straight tubes
051002-000  Curved tubes
Densco® Condensaire® Amalgam Condenser
The autoclavable Condensaire® amalgam condenser is a safe and effective way to condense amalgam automatically. Condensaire® is easy and safe to install and operate, fitting all standard four hole handpiece connectors. Requires no routine maintenance or special cleaning.
