Great for travel. Great for home.

Counter top performance in an advanced compact design. The Waterpik® Sidekick® collapses to easily fit in almost any purse or briefcase and has global voltage compatibility, making it perfect for travel. Sidekick® has been clinically proven to be more effective at removing plaque and improving gum health than brushing alone.

- Compact design is great for travel
- Global voltage compatibility
- Easy-to-hold swivel handle
- Slide pressure control
- Premium travel case included
- Limited three-year warranty
Naturally whiten while you floss

The perfect product for naturally whiter teeth and fresh breath, with all the benefits of water flossing. It restores your natural whiteness in just 4 weeks. The Whitening infuser technology expertly mixes water with a gentle stain removal agent that safely restores your natural whiteness, removes plaque, and promotes healthier gums.

- 10 Pressure settings (0.7 to 7.0 bar / 10 to 100 psi)
- Reservoir capacity of 90+ seconds
- On/Off water control on handle
- In-Handle Whitening Infuser

- 2 Modes – Floss Mode and Hydro-Pulse Massage Mode
- Four whitening water flosser tips included
- Includes 30 Mint Fresh Whitening Tablets
- Limited three-year warranty

Clinical Research Highlights

All Water Pik, Inc. clinical research is conducted by independent universities and research facilities and is published in peer reviewed journals. Recent research proves conclusively that the Waterpik® Water Flosser is more effective than string floss for removing plaque and reducing gingivitis and gingival bleeding.

SONIC–FUSION®

Waterpik® Sonic-Fusion®: Twice as Effective as Regular Brushing and Flossing for Removing Plaque and Improving Gingival Health.

Comparison of a novel sonic toothbrush to standard brushing and flossing on clinical signs of inflammation: A randomized clinical trial

Go to waterpik.com for research details.
SONIC-FUSION®

Waterpik® Sonic-Fusion®: Significantly More Effective than Sonicare® DiamondClean for Removing Plaque and Improving Gingival Health

Direct comparison of a novel sonic toothbrush to a traditional sonic brush on clinical signs of inflammation: A randomized clinical trial

Go to waterpik.com for research details.
The Waterpik® Water Flosser Significantly Improves Oral Health Benefits over a High-End Oscillating Electric Toothbrush

Efficacy of the Use of a Water Flosser in Addition to an Electric Toothbrush on Clinical Signs of Inflammation: 4-Week Randomized Controlled Trial

Go to waterpik.com for research details.
WHITENING

Waterpik® Whitening Water Flosser: Improved Stain Removal Over Tooth Brushing Alone

Evaluation of Tooth Whitening using a Liquid Dentifrice Delivered by the Waterpik® Whitening Water Flosser.

Before. After 2 Weeks of Using the Waterpik® Water Flosser with a Liquid Dentifrice.

Stain Reduction After 2 Weeks

Go to waterpik.com for research details.
Waterpik® Water Flosser
Removes 99.9% of Plaque Biofilm After 3-Second Treatment

Biofilm Removal with a Dental Water Jet

Waterpik® Water Flosser: Significantly More Effective than String Floss for Removing Plaque

Evaluation of the Plaque Removal Efficacy of a Water Flosser Compared to String Floss in Adults After a Single Use

Go to waterpik.com for research details.
Waterpik® Water Flosser: Twice as Effective as String Floss for Reducing Gingival Bleeding

The Effect of Different Interdental Cleaning Devices on Gingival Bleeding

Waterpik® Water Flosser: Over 50% More Effective than String Floss for Reducing Gingivitis

Comparison of Irrigation to Floss as an Adjunct to Toothbrushing: Effect on Bleeding, Gingivitis and Supragingival Plaque

Barnes CM, Russell CM, Reinhardt RA et al. J Clin Dent, 2005; 16(3): 71-77. Study conducted at the University of Nebraska Medical Center, College of Dentistry, Lincoln, Nebraska.

Go to waterpik.com for research details.
WATER FLOSSER

The Waterpik® Water Flosser: Significantly More Effective than Interdental Brushes for Improving Gingival Health

Comparison of Water Flosser and Interdental Brush on Reduction of Gingival Bleeding and Plaque: A Randomized Controlled Pilot Study.

Waterpik® Water Flosser: 80% More Effective than Sonicare® Air Floss for Reducing Gingivitis

Comparison of Two Power Interdental Cleaning Devices on the Reduction of Gingivitis

Go to waterpik.com for research details.
Waterpik® Water Flosser: 3 Times as Effective as String Floss for Orthodontic Patients

The Effect of a Dental Water Jet with Orthodontic Tip on Plaque and Bleeding in Adolescent Orthodontic Patients with Fixed Orthodontic Appliances

Waterpik® Water Flosser: 2 Times as Effective as String Floss for Implant Patients

Comparison of the Effect of Two Interdental Cleaning Devices Around Implants on the Reduction of Bleeding: A 30-day Randomized Clinical Trial

Magnuson B, Harsono M, Stark PC, et al. Compend Contin Ed Dent 2013; 34(Special Issue 8):2-7. Study conducted at Tufts University, School of Dental Medicine, Boston, Massachusetts.
